Allied Annie Laurie Gold Mines, Inc.
Under letter dated January 16, 1939, you were advised that unless modification of the terms of the Lease and Contract of Purchase dated March 16, 1936 was obtained, the company would lose its Lease. Our efforts were unavailing and as of April 21, 1939 the company was relieved of its properties and its rights under the contract of March 16, 1936 and supplemental contracts through forfeiture. Said forfeiture occurred because the company was financially unable to continue the fulfillment of the terms of its contract. While a dissolution of the company contemplated by the directors of the corporation has not yet been consummated, it may be considered that the stock of Allied Annie Laurie Gold Mines, Inc. became worthless as of April 21, 1939, since on that date, the effect of the termination of the lease became permanent and it appeared on that date that not only would there be no assets whatsoever remaining to be distributed to the stockholders but the company had a substantial amount of prior outstanding obligations which could not possibly be met. The property formerly owned was located in the Gold Mountain Mining District, Piute County, Utah. (Silicious gold and silver).

Arizona Girl Mining & Milling Co.
Incorporated in Arizona on Jan. 31, 1916, and failed to file reports since its inception. The company lost its charter in 1927. We searched our mining books back to 1916, and found no record of this company's operations. The company apparently did not progress beyond the development stage. We searched our stock records back to 1916 and found no market for the stock at any price. It is our opinion that the shares are absolutely worthless. Mr. James Westervelt, a former officer of the company, located at 357 W. Hill Street, Los Angeles, Calif., informed us on June 28, 1938, that this company has been out of existence for approximately twenty years, and that the stock has no value whatsoever.

Arizona & Michigan Development Co.
Incorporated in Arizona in 1904 and owned the Copper Chief Group (43 acres) at Benson, Ariz. In 1910 the company was reported as idle except for assessment work. In November 1911 a receiver was appointed. The company apparently recovered from its financial difficulties for it was operating again in 1916. In 1917 the property was leased. The County Treasurer and Tax Collector of Cochise County, Bisbee, Arizona, informed us on April 11, 1939, that their records show no property assessed to this company. The company apparently lost its property and is out of existence. We found no value to the stock.

Atlin Silver Lead Mines, Ltd.
We received the following letter from Crabtree & McKee, Trusts & Guarantee Bldg., 302 Bay st., Toronto, Canada: "Your letter addressed to Mr. R. J. Jowsey, President of Bobjo Mines, Ltd., has been handed to us as solicitors for the Bobjo Company for reply. Early in 1934 Bobjo purchased sufficient shares of Atlin-Ruffner Mines, Limited, to give it control of that company. Bobjo then proceeded to do considerable development work on the property, but later in the same year all work was abandoned and it is not the intention of Bobjo to do any further work on this property. There is absolutely no market for the stock whatsoever. Some of the claims have been abandoned but others are being held in the hope that some day a purchaser will be found for them. The recent meeting held in Vancouver was merely routine, having been held to comply with the British Columbia Companies Act." The Atlin-Ruffner Mines, Ltd., was incorporated in 1929 as a reorganization of the Atlin Silver Lead Mines, Ltd., organized in Washington in 1922 and which was a successor to Ruffner Mines, Ltd., incorporated about 1931.

Incorporated under the laws of the State of West Virginia on July 7, 1900. The company owned 12 patented claims, including the Monte Cristo mine on Ithaca Peak in the Mineral Park district, 12 miles north of Kingman, Mohave County, Arizona. The office was located at 12 John Street, New York City. The corporation was regularly dissolved September 22, 1910. We searched our library records and newspaper clippings back to 1910 and found no record of any distributions on the stock. We also consulted mining records for the same period and found no record of any distributions on the stock. It is our opinion that the shares are without value.

Barbara-Marshay Mines, Ltd.
Incorporated in Arizona in 1924 as the Barbara Mountain Mining Co. Name changed to above in 1928. The Copper Mountain Apex Mines, Ltd. took over one of the properties of the Barbara-Marshay to operate. Mr. D. B. Helm, former Treasurer of the company, located at 200 Madison Ave., New York City, informed us on Jan. 5, 1940 that when the companies were formed certain parties agreed to turn over their mining properties to the companies on condition that the Canadian interests put up $250,000 to operate. At that time, when the bottom dropped out of the copper market, the Canadian interests failed to finance the companies and the venture just became a fantastic dream. The companies are out of business and the shares are worthless.

Barnes-King Development Company.
We received the following letter from the company located at P. O. Box 1971, Butte, Montana, dated Oct. 21, 1939 and signed by the Treasurer, William B. Roll. "Replying to your letter of Oct. 13th, would state that this Company paid two liquidating dividends in 1925 aggregating 74¢ per share and none since. At present there is in the treasury an amount equivalent to about 8¢ per share on the 400,000 shares outstanding. A further liquidating dividend will be paid some time to the stockholders, but none is contemplated in the near future. No further transfer of certificates can be made, as the Company has been dissolved, but certificates should be retained by the holders for future proof of ownership. There is no market for the stock that we know of. Your client probably received his share of the above mentioned two dividends in 1925, or the holder of record of the certificates you refer to. If not, and you will advise us the name in which the certificates stand, we will look up our records as to same and advise you."

Barnes-King Development Company,
a Dissolved Corporation. The Barnes-King Development Company was on December 16, 1925, dissolved by decree of the District Court of Silver Bow County, Montana. The then directors were appointed Trustees for the stockholders and creditors. The same Court has ordered a partial distribution of assets of $36,000.00 payable on 400,000 shares of stock, being nine cents per share to stockholders who establish ownership of stock and present their certificates to the surviving Trustees for the purpose of proving ownership and to have stamped on each certificate the payment of said partial distribution of assets. Accordingly, all stockholders of record and other rightful owners of such stock are requested to immediately send in all their Barnes-King stock certificates, together with the enclosed form properly filled out as to each and all certificates owned, to: Trustees, Barnes-King Development Company (Dissolved), 619 Hennessy Building, Butte, Montana. Dated April 6, 1940.

Barry-Hollinger Gold Mines, Ltd.
Incorporated under the provisions of The Ontario Companies Act by Letters Patent dated May 20th, 1919, under the name of "Barry-Hollinger Gold Mines, Ltd." and by Supplementary Letters Patent dated Feb. 24, 1932, changed its name to "Barry-Hollinger Mines, Ltd." This Company has not formally surrendered or cancelled its charter, but they have filed no annual returns with the Department since May 1, 1936 which showed the following: President, Dr. E. Herbert Green, 3 St. Thomas St., Toronto, Ont.; Secretary, D. McKinnon, 7 Deer Park Cres, Toronto; Directors: E. S. Williams, Cooksville, Ont.; Dr. R. J. Neelands, Kirkland Lake, Ont.; M. M. Smith, 2233 Bloor St. W., Toronto, Ont. The head office was located at Room 315, Bloor Bldg., 57 Bloor St., W., Toronto, Ont., Canada, but letters addressed to this address have been returned. The Solicitors who

were looking after the Company's affairs were Messrs. Fennell, Porter & Co., General Assurance Bldg., Toronto 2, Ont., Canada. We wrote to Fennell, Porter & Co. and received the following note on our letter signed by E. H. Greene, evidently the former President of the Company. "The above property was foreclosed by the mortgagee in 1936." We found no value to the stock.

Y. The total assessment is $9,550. Mr. Leonard is Supervisor of the town of Clifton.

Benson Mines Company. The Benson Iron Company, Inc., located at 663 Main Avenue, Passaic, New Jersey, informed us on April 18, 1940, that the old stockholders in the Benson Mines Company received a smaller amount of common stock in the Benson Iron Company, the present owner of the property, for their stock. The exact details of the exchange are given in the minute book which is now in the possession of the Secretary of the company, Gordon L. Benjamin, c/o Gulf Refining Company, 17 Battery Place, New York City. The Treasurer of St. Lawrence County, at Canton, New York, informed us on March 29, 1940, that the property of the Benson Mines Company in the town of Clifton, New York, is now assessed to the Benson Iron Company. The property consists of 1927.30 acres of burned land, a farm of 40 acres and denuded land of 1,000 acres, 12 houses, boarding house, water tank, and a portion of old Wanakena railroad grade near Benson Mines. The total assessment is $9,550. and the name of the party to whom tax bills are rendered is Mr. J. H. Leonard, Newton Falls, New York. Mr. Leonard is supervisor of the town of Clifton.

Big Black Bear Mining Co., Limited.
Incorporated 1928 in British Columbia, and was located at 212 Pemberton Bldg., Victoria, B. C. Mr. M. G. Henry, it was reported, sold the Big Black Bear mine to the Big Black Bear Mining Co., Limited, for a cash and stock consideration. Later, alleging conspiracy to defraud, filed suit for recovery of the mine with damages. We searched the "Financial Post Survey of Mines" from 1928 and find no mention of the company since then. It is our opinion that the company lost its property and is out of existence. We found no value to the stock and therefore believe the shares are without value.

Blue Bird Mining & Milling Co., 1441 Walton Street, Rm. 311, Denver, Colo.
Following received from company, Dec. 30, 1939. The Golden Consolidated Mines Company was liquidated several years ago. Stockholders therein had an opportunity to exchange their stock for stock of the Blue Bird Mining & Milling Company, and many did so. So far as we know, there is no market at the present time for the stock of the Blue Bird Company. In view of the present low price of the base metals such as copper, lead and zinc, it has not been practical to operate the principal properties of the company, and therefore the company has had no earnings. Several attempts have been made to raise capital to put the Henrietta mines in condition for operating, but these attempts have been unsuccessful. During the summer of 1939 we had a considerable amount of work done on our more important unpatented claims in San Juan County. And these holdings are thus protected under the government annual assessment requirements. We have been endeavoring to get substantial operations started and to lease or sell part of the property in an effort to raise sufficient capital to operate some of the other mines of the Company, and this effort will be continued. In view of the present European war there should be a good possibility of doing this, if the war continues very long. Any new developments in connection with the Company will be outlined to stockholders at such times as they may take place.

Boston-Montana Mines Company.
Incorporated in Montana in June, 1928. The new management tried actively to finance operations by stock sales but that proved disappointing. In 1932, dissatisfied stockholders formed a Protective Association which eventually resulted in the formation of the National Boston-Montana Mines Corporation of Helena, Montana, under an agreement whereby old stockholders were offered a share for share exchange, upon payment of 5¢ per share. The

old shares of the Boston-Montana are now worthless.

Mr. Edward R. Dewey of 370 Lexington Ave., N. Y. C., stated that this company was in financial difficulties and owed considerable money for taxes in 1873. His father purchased the land in 1901 from a Mr. Geo. H. Church, both of whom he states are deceased. The bonds are apparently worthless, because if any unclaimed funds did exist for bondholders, the funds would be held by the Prothonotary of the Common Pleas Court at Kittanning, Penna. The Prothonotary of Armstrong County, Kittanning, Penna., informed us that the real estate of this company was sold to Edward Dewey of Kaylor, Penna. The Prothonotary also stated that this company has been out of business a number of years, and there are no assets in the name of this company at this time.

Bristol Consolidated Mines & Smelting Company.
Incorporated in Arizona in 1906 as an outgrowth of the Hillside Copper Mining Co. and the Bristol Copper Mining Co. In 1910 the property located near Bristol, Nev., was idle. In 1911 the property was transferred to the Day Bristol Consolidated Mines Co. The property was sold in 1915 and was transferred to the Consolidated California Nevada Mining Co. The latter company went into receiver's hands. The property then went to the Uvada Copper Co. and lastly to Bristol Silver Mines Co. The shares of the latter company were assessable. Therefore any shares of the previous companies are worthless. Our records do not indicate whether there was any exchange of stock, but under the circumstances all shares are sold by default on which no assessments were paid. We submit the stock as worthless.

British Columbia Copper Company, Ltd.
Incorporated in West Virginia in 1898, and was located at 831 Nassau Street, New York City, in 1910. The company controlled the New Dominion Copper Co., Ltd. The company paid dividends of 40¢ per share on July 18, 1907, and 12½¢ per share on March 1, 1911. On March 20, 1917, the properties and assets of the company were purchased by the Canada Copper Corporation, on the basis of one share of Canada Copper for two shares of British Columbia. The Debenture bonds of the British Columbia Copper Company, Ltd., were called for redemption in August, 1917. The property of the Canada Copper Corporation was foreclosed many years ago at which time the First Mortgage bondholders were not paid in full leaving no equity for the capital stock. Therefore, the shares of the British Columbia Copper Company, Ltd., have no value.

Buckingham Mines Corporation.
Incorporated under the laws of the State of Nevada and is delinquent in the amount of $52.50 in fees and penalties covering the period of years from 1932 to date. Last list of officers filed on June 4, 1931 showed the following: President, James A. Gray, 596 Victoria St., San Francisco, Calif.; Vice-President, Axel Johnson, 362 Vernon St., Oakland, Calif.; Secretary, Albin Youngholm, 866 31st Avenue, San Francisco, Calif.; Director, E. A. S. Whittard, Battle Mountain, Nev.; R. V. Dixon, 358 Staten St., Oakland, Calif. The principal office was located at the town of Battle Mountain and W. C. Hancock was the duly authorized resident agent of said corporation. Articles of Incorporation were filed by E. A. S. Whittard of Battle Mountain, Nevada. Letters addressed to the above officers have not been answered nor returned. We found no value to the stock. We received the following letter from Mr. W. P. Paulsen, Secretary of the Workman Packing Co., 428 Seventh St., San Francisco, Calif. dated Sept. 29, 1938. "Your letter of September 7, written to Mr. Gray in care of the Sinaloa Premier Mines Company, has been handed to the writer to answer. In reply to same wish to advise that the Buckingham Mines Corporation is the owner of 350,000 shares of Sinaloa Premier Mines Company stock, which is the sole asset of the Buckingham Mines Corporation. There is approximately 679,000 shares of Buckingham stock issued and outstanding, and there are approximately $185,600.00 in debts owing to some of the principal stockholders for money

advanced. Therefore before stockholders would receive any dividends from the Sinaloa Company, these debts would have to be adjusted. What form this adjustment would take is not known at the present time and has not been decided upon as yet by officers of the Buckingham Mines Corporation. At the present time Buckingham Mines Corporation shares are of no value and are not listed. The Mexican property of the Sinaloa Company is equipped at present with a 100-ton Flotation Mill, and production of concentrates has been made at the property. The mill is temporarily shut down at the present time due to heavy rains and consequent impassability of the road to the mine. The rainy season should be over about the middle of October, when production will be resumed; and it is estimated that production will then be on a profitable basis, so that Buckingham Mines Corporation shares should prove of value in the future."

Bull Frog Gold Crown Mining Company.
Incorporated in Nevada on Feb. 7, 1907 and forfeited its right to do business legally under its charter on the first Monday of March 1924 because of non-payment of corporation tax. The last annual report filed March 23, 1907 showed the following: President, L. I. Scott, San Francisco, Calif.; Vice-President, Henry Z. Osborne, Los Angeles, Calif.; Secretary, W. F. Rambo, San Francisco, Calif.; Treasurer, W. F. Williamson, Oakland, Calif. The principal office was then located at 116 North Carson St., Carson City, Nevada, and the State Agent and Transfer Syndicate was the duly appointed resident agent. We received the following letter from W. F. Williamson, of Williamson & Wallace, 310 Sansome St., San Francisco, Calif. dated Oct. 21, 1939. "We are in receipt of your letter of the 10th instant in which you state that a client holds stock with the Bull Frog Crown Mining Co. and you ask as to the present status of the company, Etc. The writer acted as attorney in the formation and organization of this company some thirty years ago. From what is left of the skeleton files in our office, we note that a group of representative and responsible men employed us to form this company to take over some mining claims located in Nevada. We organized a company, secured permit for the sale of stock and there our connection with the company ceased. Upon receipt of your letter, we inquired from such of the incorporators as are still living and within reach as to what was done. They advise that very little stock was sold,—practically none, except to the incorporators; that the funds received were expended in examining the property and otherwise furthering the company's plans; but that for the want of additional money, the proposed purchase was not consummated and the whole enterprise was dropped. Under the circumstances, you can readily understand that the stock has no value even if, which we think is not the case, the company still has a charter. I am pleased to assure you that the organizers of this enterprise are all men of the strictest integrity and I am sure that whatever investment you made was properly applied." From the above information, it is our opinion that the shares are worthless.

Y.; Amos Avery, Greenwich, Conn.; J. Edgar Bowman, Greenwich, Conn. This company was succeeded by the Western Copper Mining Co. We found no value to the stock.

Bunker Hill & Sullivan Mining & Concentrating Co., Kellogg, Idaho.
Inc. originally in Oregon and filed in Idaho in 1903; changed to a Delaware corporation and filed in Idaho in 1924. Secretary, J. W. Crosby, 1022 Crocker Bldg., San Francisco, Calif. Property: Bunker Hill; 405 patented and 41 unpatented claims, Yreka district, Kellogg, Shoshone County, Idaho. Ore—Lead, Silver. Also owns mining claims in Kootenai County, Idaho. Employs 815 men. Owns other claims in Blaine and Idaho Counties, Idaho. The Denver Mining Record reported on April 20, 1940 as follows: Wallace, Idaho.—President Stanly A. Easton, in the 52nd annual report of the Bunker Hill & Sullivan Mining & Concentrating Co. for the year 1939, said the mine has 2,905,344 tons of ore blocked out and ready for mining. That is enough tonnage to last over a period of more than eight years at the present rate of production and has been developed without opening any new mine levels by sinking operations since Jan. 1, 1939. The total amount of ore mined by Bunker Hill from May 1886 to December 1939 was 16,953,995 tons with a gross value of $203,533,775.41. The net smelter returns amounted to $122,227,294.44 and the operating profit before depletion was $58,928,094.86. Dividends paid by the company during that period amounted to $53,303,018.35.

Burnham Chemical Co.
It was reported in the Denver Mining Record, Oct. 8, 1938, the equipment of the above company long idle at Randsburg, Calif. on Searles Lake has been auctioned off to the highest bidders. Cost of the equipment sold is estimated at around $1,000,000. The company erected the plant in the early 1920's to produce potash, borax and other chemicals. Little actual production work was done and the plant has been idle for many years. As the lease expired the land reverted to the Government which now rents many of the Burnham buildings to workers in nearby plants.

California Combstock Gold Mines, Ltd. (Del.).
We received the following letter from M. H. Collins, President of the company, dated Oct. 13, 1938, and located at San Bernardino, Calif. "In answer to your letter of August the 12th, 1938 regarding the stock of the California Comstock Gold Mines, Ltd. I am at this time making plans to reopen the property after a two year shut-down, the machinery and equipment have been completely overhauled and I contemplate starting new development work in the very near future. At this time the Company is in need of additional finances for this development and we have taken the matter of re-financing up with the S. E. C. at Washington, D. C. and are now writing a new prospectus for the sale of an additional 100,000 shares of the treasury stock for the additional expense of the development and to place the property on production. The property was at one time on production and the Securities Exchange Commission told us that we had violated the S. E. C. Act of 1933, so we immediately closed down and then set about to register the outstanding 600,000 shares of stock which is a part of the stock your client owns. This was all completed and is now a registered stock and the Company is again in the clear and ready to mine. We have a very large deposit of good ore and have the very best Engineers reports. The property is well equipped and well managed, so, in my opinion, there is no reason why we shouldn't make a success of the venture, I can truthfully say this, that there are very few properties now on production that have the excellent showing that we have and that are as well equipped as we are."

Castle Creek Mining Company.
Incorporated in Washington and owned certain property located in the Park City district, Ferry County, Wash. In 1922 the property was under lease to C. E. Cross of Republic, Wash. The company was reported dead in 1925 and was stricken from the records on July 1, 1926. We found no value to the stock and therefore believe the shares are without value. The County Treasurer of Ferry County, Republic, Wash., informed us on January 16, 1939, that they have no record of this company. Therefore, the company no longer owns any property in Ferry County and confirms our previous opinion that the stock has no value.

Castle Dale Valley Fuel Co., Castle Dale, Utah.

Castle Dome Development Company.
Incorporated in Maine on Dec. 24, 1915, and filed its last return in 1932. The corporation was dissolved by decree of court on June 17, 1932. Mr. Garrett Mott, formerly President of the company, located at 111 Broadway, New York City, informed us as follows on Nov. 4, 1938. "Replying to your letter of Oct. 31st, I would say that all of the assets of the Castle Dome Development Co., were sold to its successor company, Pinto Valley Co., several years ago, and the former has been dissolved. The terms of the sale covered payment on a basis which would result in a share for share distribution to stockholders of Castle Dome Development Co., namely 1 share of Pinto Valley Co. stock for each share of Castle Dome Development Co., and this stock is still available to those who have not surrendered their shares. The Pinto Valley Co. is not active, however, and while a substantial body of disseminated copper ore has been developed on its property, it has not been possible as yet to arrange for production, or to dispose of the property. There is, therefore, no market for the stock, to my knowledge."

Conqueror Zinc Companies.
Incorporated in Missouri in 1903, as a consolidation of the mining companies and properties formerly owned by William Houk of Joplin, Mo. The Property consisted of 570 acres of zinc lands in Newton and Jasper Counties, Missouri. The report filed in 1940, shows the following: President, J. G. Starr, Joplin, Mo.; Secretary, E. A. Ellis, Joplin, Mo.; Treasurer, J. W. Maret, Joplin, Mo. The Conqueror Trust Company of Joplin, Missouri, informed us on February 1, 1940, that the stock has no market value. Aside from a cash balance which is being rapidly depleted by payment of taxes, the only assets of the corporation consist of two tracts of rough unimproved land near Joplin from which no income is being derived and on which the possibilities of sale for any substantial figure are not promising. A dissolution of the corporation will be recommended, but the stock is so widely scattered that any concerted action between stockholders would be difficult to obtain.

Consolidated Arizona Smelting Co.
Incorporated in Maine on Dec. 22, 1908. Stock was once listed on the Boston and New York Curb. On Dec. 24, 1920, G. M. Colvocosesses was appointed receiver and on April 7, 1922 the property was sold. In reorganization company changed its name to South West Metals Co. and one share of Cons. Arizona stock plus an assessment of 40¢ per share received one-fortieth share of the South West Metals. This exchange was offered in June, 1921 and we understand that a great proportion of the stock was acquired by the company in this way. In view of the above and the assessment we do not consider this stock to be of any value today and it is reported that the time limit for making this exchange expired some years ago. Trustee of bonds—Trust Company of America, New York City. We were advised by Consolidated Arizona Smelting Company of Arizona that the company went out of business in the spring of 1909. It is our opinion that the shares are worthless.

This company formerly held property in the Agua Fria district, Yavapai County, Arizona. The Tax Assessor of that county informed us that the claims formerly held by this company are now owned by the Grey Eagle Copper Company, 53 Bonham Street, Bonham, Texas. The latter company informed us on March 9, 1940 that the property of the Copper Queen was foreclosed several years ago and the guarantors of the indebtedness of the Copper Queen afterwards incorporated the property in the name of the Grey Eagle Copper Company. The property consists of 350 acres of mountain land in Arizona. The present stockholders are assessing themselves to pay the taxes. The stock of the Copper Queen was wiped out at the time of the foreclosure.

Cripple Creek Milling Co.
It was reported in the Denver Mining Record On Oct. 29, 1938, as follows: "The U. S. District Court in Denver has ordered the sale of the assets of the Cripple Creek Milling Co. under bankruptcy proceedings. Referee in Bankruptcy Frank McLaughlin, Symes Bldg., Denver, Colo., has been ordered to proceed under the bankruptcy act. The court record shows that the Cripple Creek Milling Co. made an effort to find a purchaser for the property, but without success. The debtor states that the assets are less than the liabilities. The assets were listed in a previous statement at $667,795. A. S. Brooks, trustee, approved of the request made by the milling company and petitioned the court to grant the request. The Cripple Creek Milling Co. owes ore shippers $47,365. It owes trade accounts of $39,792 and taxes of $10,389. The greatest amount due to ore shippers is that due to International Gold Producers Inc., $29,895. The mill owes Orpha May Mining Co. $3,109 and to Peterson Twinem, lessee of the Geneva mine $2,092. Several other leasing organizations in the Cripple Creek district have lesser amounts coming for their shipments to the mill. The liabilities of the milling company include $200,000 in first mortgage bonds with accrued interest of $10,000, $200,000 in second mortgage bonds held by the Myron-Stratton Home of Colorado Springs with accrued interest of $10,730. Notes payable include one to the Stratton Home of $26,660 and one to the Exchange Bank of $30,900.

We received the following letter from Charles G. Schirmer, 50 State Street, Boston, Mass., dated March 3rd, 1939. "Replying to your letter of Feb. 27th, would say our records show that the 80¢ dividend has been paid on the stock of Joseph Glendenin. If you will examine the certificate carefully I think you will find the impression of a rubber stamp in faint green ink." The 80¢ represents the final dividend, the total dividends paid were $4.80. If your stock has stamps on them totaling $4.80, the shares are worthless.

Doctor Mining Co.
Value of 50 shares of Capital Stock. Incorporated under the laws of the State of Arizona in 1907, and has failed to file any reports since its inception. The company's charter expired by 25 year statutory limitation on Feb. 11, 1932, and has not been reinstated. We searched our mining records back to 1907 and found no record of this company's operations. It is our opinion that in view of the fact that the company failed to file any reports that it was short-lived and passed out of existence soon after incorporation. The shares are absolutely worthless.

Duke Mining Co., Limited.
Incorporated in British Columbia in 1927, and changed its name to Silver Cup Mining Co., Limited, in 1928. The last known address of the company was Rogers Bldg., Vancouver, B. C. The property consisted of 7 crown granted claims on Nine Mile Mountain, B. C. Early in 1930 it was reported that with the completion of the shipment of 15 cars of concentrates, operations had proved unprofitable. A letter addressed to the Silver Cup Mining Co., Limited, at the above mentioned address was returned marked "Out of Business." We found no value to the stock and therefore believe the shares are without value.

Franklin Mining Co.
Suspended operations in Franklin County, Ill., in October 1934.

Franklin Mining Company.
Incorporated in Michigan on April 18, 1857, and was dissolved by order of Court filed Sept. 29, 1933. Assessments of $2.00 levied Aug. 12, 1920; $1.00 on June 2, 1923; 50¢ in Jan. 1925; 50¢ in Jan. 1926 and 50¢ on Feb. 21, 1927. Unissued stock was set aside to acquire the total capital or 100,000 shares of the Rhode Island Copper Co. An assessment of $3.25 per share was levied against the shares of the Rhode Island Copper Co. payable June 27, 1927, for the purpose of paying up the debts and closing out the company. The shares apparently are worthless.

General Minerals, Inc., S. A. (Mexico).
The Department of Mines, Mexico City, Mexico, informed us as follows on Oct. 14, 1939: "This company was registered in the Public Register of Mines and made a contract with Gaston J. Petit to explore the following mines: Maria, 63084; La Zarza 63365; Bortina, 63366; El Salvador, 63826; El Encinal, 63312; Ampliacion del Encinal, 66149; Ampliacion de La Zarza 66114; 2a Ampliacion de La Zarza, 66148; San Ignacio, 66327; La Lajuela, 62856; Trinidad Vieja, 63080; Ampliacion de Trinidad Vieja, 63083; San Luis, 63311. The contract terminated on Dec. 31, 1936, and said contract was not renewed. No development was done on the mines after July 1936. On Sept 12, 1936 the First Judge of the Civil Court at Mexico City declared the company in liquidation. The last address of the company was Edificio Rul, Desp. 406, Mexico, D. F." It is our opinion that when the company failed to find commercial ore, the contracts were terminated and the properties reverted to the Mexican Government. For income and estate tax purposes the shares first became worthless in 1936.

Globe Mining Company.
Incorporated in Arizona. The Treasurer of Gila County, Globe, Arizona, informed us on May 19, 1938, that this company is not on their tax rolls. The company therefore owns no property today. The company did own 21 claims, patented; 335 acres, 2½ miles North of Globe, Arizona. Kenworthy, Shallberg & Harper, attorneys, located at Moline, Illinois, informed us as follows on June 3, 1938. "Many years ago I represented Rufus Walker of Moline, Illinois, who was interested in the Globe Mining Company both, as I recall, as a stockholder and a noteholder. About the year 1915, certain noteholders residing in Moline, Ill. joined with Mr. Walker in foreclosing the mortgage on the mining property given by the Company to secure the payment of the notes and there being no bidders at the sale, the property was bid in by Rufus Walker as Trustee for all of the noteholders. Since that time, Mr. Rufus Walker has departed this life and the legal title was, as I recall, transferred to his son, Frank Walker, as Trustee for the noteholders. Mr. Rufus Walker had for a number of years advanced the money covering the payment of taxes and operating expense and this was prior to the foreclosure of the mortgage and subsequent to the foreclosure he continued making these advances up until the time of his death. Mr. Frank Walker, as Trustee, at various times attempted to sell the property but as I recall no sale was ever consummated. Various parties indicated that they might be interested and after taking an option on the property they, however, elected not to exercise the option. Personally, I believe that the Company is no longer in existence on account of its failure to make annual reports and pay franchise tax to the State of Arizona and, furthermore, I think that the property has been lost to the State for failure to pay taxes and other charges. I regret that I cannot give you any more information on the subject but would suggest that you write to Mr. Rufus Walker, 519 27th Street, Moline, Ill. son of the late Rufus Walker above referred to." The above letter is self-explanatory. The property was lost to the noteholders and the noteholders apparently lost the property for taxes. The shares in our opinion are without value.

Goddard Mining Company.
Incorporated in Arizona on Sept. 26, 1902 and failed to file reports since its inception. The company's charter expired by limitation on Sept. 26, 1927. We found no record of the company's operations and therefore believe that the company did not get beyond the development stage. The shares in our opinion have no value.

Gold Medal Mining Company.
Incorporated in Colorado on March 4, 1927, and was located at Idaho Springs, Colorado. The property consisted of the Gold Medal, Silver Cycle, Silver Age Extension and French Flag patented claims in Gibson Gulch, Clear Creek County, Colorado. The company had no success with the property as had its predecessor, the Silver Cycle Mining Company. The company lost its charter on October 10, 1933. In 1937 it was reported that the Elkhorn Gold Mines, Inc., U. S. National Bank Bldg., Denver, Colorado, had in 1929 contracted for 54% of the stock of Gold Medal Mining Company through exchange on the basis of 100 shares of Gold Medal stock and $100. in cash for 200 shares of Elkhorn stock. It was another way of transferring unproven property to another corporation and selling new stock at 50¢ per share. We found no value to the Elkhorn stock and therefore

believe that the shares of the Gold Medal Mining Company are worthless.

Incorporated in Utah and lost its charter on September 29, 1934, and has not been reinstated. Mr. Homer McCarty, located at 1871 So. 19 East, Salt Lake City, Utah, informed us on January 23, 1940, that since 1933 the company has been defunct. The company still owns the 17 or 18 patented mining claims situated in Sevier County, Utah. The taxes on this property have been unpaid for many years. This coming May the County will sell the mining claims for the delinquent taxes, amounting to something like $500. Mr. I. A. Smoot, Secretary and Treasurer of the company is located at Federal Bldg., Salt Lake City, Utah.

Golden Consolidated Mines Company (Colo.).
We received the following letter from the Blue Bird Mining & Milling Company, 1441 Walton Street, No. 311 Denver, Colo., dated Dec. 30, 1939, and signed by N. H. Jones, Secretary: "The Golden Consolidated Mines Company was liquidated several years ago. Stockholders therein had an opportunity to exchange their stock for stock of the Blue Bird Mining & Milling Company, and many did so. So far as we know, there is no market at the present time for the stock of the Blue Bird Company. In view of the present low price of the base metals such as copper, lead and zinc, it has not been practical to operate the principal properties of the Company, and therefore the Company has had no earnings. Several attempts have been made to raise capital to put the Henrietta mines in condition for operating, but these attempts have been unsuccessful. During the summer of 1939 we had a considerable amount of work done on our more important unpatented claims in San Juan County. And these holdings are thus protected under the government annual assessment requirement. We have been endavoring to get substantial operations started and to lease or sell part of the property in an effort to raise sufficient capital to operate some of the other mines of the Company, and this effort will be continued. In view of the present European war there should be a good possibility of doing this, if the war continues very long. Any new developments in connection with the Company will be outlined to stockholders at such times as they may take place."

Golden Lode Mining Company.
Value of 3,000 Shares of Capital Stock. Incorporated in Colorado on December 3, 1935, and was located at 808 Ninth Street, Greeley, Colorado. Mr. C. W. Light, formerly President of the company, located at Idaho Springs, Colorado, informed me on January 23, 1940, that nothing has been done on their mine for the past three or four years. The moving spirit in the company died about a year ago, and since then Mr. Light has been unable to collect wages in the amount of $365. He states that the stock has no value whatever. Therefore, in view of the above, I believe the shares were worthless as of September 4, 1939, the date of the decedent's death.

Goldfield American Mining Co.
Incorporated in Nevada and forfeited its right to do business legally under its charter on the first Monday of March, 1924, because of failure to file list of officiers and pay fees and penalties amounting to $137.50. The incorporators were as follows: Frank E. Horton, Clase Spilles, John M. Fairfield. The last list of officers filed July 18, 1907, showed the following: President, Frank E. Horton, 26 Caming Bldg., Oakland, Calif; Vice-President, W. E. Mitchell, 25 Broad St., N. Y. C.; Vice-President, John R. Searles, Goldfield, Nev.; Assistant Secretary, Lloyd W. Horton, Goldfield, Nev. The principal office of said company was located at Goldfield, Nev., and John R. Searles was the duly appointed resident agent of the company. We found no value to the stock.

Goldfield Blue Bell Mining Company.
Incorporated in Arizona in 1904, and its charter expired by limitation in 1929. It was reported that the company was controlled by the Stokes Estate of New York. In 1931, it was reported that in late 1929 the properties of the company were sold by the sheriff of Nye County, Nevada, to satisfy a mortgage held by the Stokes Estate. The Nevada Company, a New Jersey Corporation, purchased the property for $30,000. The mortgage was for $100,000. As the mortgage was not satisfied in full, there remained no equity for the stock which is without value.

Goldfield Consolidated Mines Co., Reno, Nev.

Goldfields Consolidated Mines, Inc.
Incorporated in South Dakota on Oct. 7, 1930, as the North American Development Corporation. On Nov. 17, 1930, the name was changed to the American Development & Service Co. On July 6, 1933, the name was changed to the above. The stock, we understand, is signed by L. A. Goodman as President and A. Riley, Assistant Secretary. We understand that the principal assets of this corporation consist of stock of the Ardsley Butte Mines Corp. (The following report on this company taken from Robert D. Fisher Manual of Valuable and Worthless Securities, Vol. VI.) This company is located at 85 Hirbour Bldg., Butte, Montana. Mr. A. Riley of the corporation, informed me on September 11, 1935, that this company has issued no financial statement for several years, due to the fact that it has not operated its properties and there have been no receipts or disbursements. Mr. Riley further stated that the stock of the company is not worthless inasmuch as the company owns its properties at Butte and plans are now under way to resume operations which were discontinued due to the drop in the price of metals. In order to establish a loss for income tax purposes it will be necessary to sell the shares (1935). On May 2, 1939, the County Treasurer at Boulder, Mont., informed us as follows regarding the Ardsley Butte Mines Corp.: "Taxes have not been paid as per enclosed adding machine amounts. County will take tax deed to Mining Claims some time this year."

	Mining Claims	Land
1931	$50.94	
1932	53.69	
1933	56.87	
1934	61.25	
1935	59.06	$24.40
1936	58.88	Paid
1937	59.18	23.85
1938, 1st half	36.40	11.65
1938, 2nd half	36.40	11.65
	$472.67	$71 55

In May, 1940, property was not redeemed, and is now owned by the County. Our records also indicate that the company held 1 patented and 2 unpatented claims, Madison County, and the Lost Cabin Placer, group of 4 unpatented claims, Buffalo Creek dist., Lewis and Clark Counties, Montana.

Guanajuato Consolidated Mining & Milling Co.
This company, located at 50 Broad Street, New York City, informed us as follows as of January 10, 1940. ". . . There have been no

recent developments in the affairs of the company, except that a year ago last August the Mexican Government put into effect a 12% export tax, on top of the already high production taxes, which has, naturally worked a great hardship on us; and the recent drop in the price of foreign silver, from 43¾¢ per ounce to 34¾¢ per ounce, has made it increasingly difficult for the company to operate at a profit. The 12% export tax was imposed by the Mexican Government in an offort to offset the loss in revenue from the oil properties which it had expropriated only to find that it could not market the oil, except to Germany, on a barter basis. It is believed that if the oil controversy is settled. this export tax will be rescinded, which will, of course, better our company's position. There has been little, if any activity in the stock in recent years and we know of no market for it at the present time."

Hancock Consolidated Mining Company.
Incorporated Michigan on June 11th, 1906, and was dissolved on August 28, 1939. Mr. Ryan C. Harrington, Treasurer of the company, located at Hancock, Michigan, informed us on October 11, 1939, that this company went into receivership about sixty days ago and the stock has no value. Taxes have been unpaid for several years and the property has reverted to the State on tax sale. There will be no remaining assets for the stockholders. The mine ceased operations in 1920 and some time ago the buildings were disposed of for scrap to pay current expenses.

Harkness Hays Gold Mining Company, Limited.
Incorporated in Ontario with a capitalization of 1,200,000 shares of capital stock. The assets of this company were sold to the Harkness Hays Gold Mines Limited and the stock was exchangeable on a share for share basis. The assets of the latter company were purchased by Kay-Hays Mines Limited for 1,000,000 shares of their stock. The capitalization of Harkness Hays Gold Mines Limited was 1,200,000 shares. This stock was to have been held in escrow by a trust company until released by the Ontario Securities Commission. The Ontario Securities Commission, located at Toronto, Ontario, informed us as follows on November 3, 1939: "In reply to your letter of the first of November please be advised that none of the escrowed stock of the Kay-Hays Mines, Limited, has been released to date, and cannot be released until the company is adequately financed. Our most recent information with regard to the company indicates that an option agreement covering treasury stock has been extended for one year from the first of January, 1939. We suggest that you communicate with the company's solicitor, Alexander R. Cochrane, Esq., K. C., 1706 Sterling Tower, Toronto, or with the company's head office which, according to our most recent records, is Room 405, 11 King Street, West, Toronto." We found no market for the stock at any price, and because of the fact that the company is still in the prospective stage, we do not believe the stock could be sold except as a speculation. If the company is not adequately financed the shares will be worthless. Under the circumstances, we would hesitate to place a value in excess of 1¢ per share at this time, and this value is merely speculative on the chances that the company may obtain sufficient capital to start operations.

Hill Top Metals Mining Co.
Incorporated in Arizona on Sept. 11, 1915 and since 1934 has failed to file reports and pay franchise taxes. President, Eugene Hector, 7641 Phillips Ave., Chicago, Ill.; Secretary, J. F. Kasper, Otis Bldg., Chicago, Ill. Letters addressed to Mr. Hector have not been answered nor returned. The company, it was reported, had expended $1,000,000. up to 1923, to bring the mine to a productive stage. In 1929 the company was inactive. Mr. Eugene Hector, located at 7619 Essex Ave., Chicago, Ill., informed us as follows on Oct. 28, 1938: "All the claims of the Hill Top Metals Mining Company in Cochise County, Ariz., were on July 7, 1936, offered for sale at public auction by the sheriff of the County. There was but one bid for the property—that of the Board of Trustees for holders of the company's notes. This bid was equivalent of the face value of the notes and there was no cash exchange in the transaction. About May 1, 1938, the trustees, in turn, sold all the claims and personal property to private individuals and transmitted a sheriff's deed to the same. The stock has been without value since the original sale on July 7, 1936. Prior to that date the corporation was kept a going concern by noteholders and stockholders, in the hope that something could be done with the properties. These noteholders and stockholders advanced funds for paying taxes, doing assessment work and providing for other expenses. The funds realized from the second sale of the property belonged of course to the Board of Trustees. The mine was closed down in 1926." The Treasurer of Cochise County, Arizona, informed us as follows on Oct. 25, 1938: "The property of the Hill Top Metals Mining Co., was sold at Sheriff's Sale to O. O. Mattox, of Paradise, Arizona, who paid personal property tax on same for the year 1938." In view of the above it is our opinion that the shares are without value.

We received the following letter from W. F. Wrieden, Suite 1309, 29 Broadway, New York

City, and 136 E. Pierrepont Ave., Rutherford, N. J., dated Nov. 22, 1938. "Sorry to have delayed answering your inquiry regarding the status of Humboldt Mines, Inc., but I have been out of town for some time. At the present time there is not any value for the stock in fact the company has lost their leases on their claims in Arizona through default. I have personally been trying for some time to reorganize the old company and will advise you when a definite plan has been formulated and the leases renewed."

Hunchbell Mining & Milling Company.
Incorporated in Nevada in 1923 to take over the property of the defunct Albermarle Mining & Milling Company. The property consisted of 11 claims in Esmeralda County, Nevada. The Deputy Assessor of Esmeralda County at Goldfield, Nevada, informed us on March 11, 1940, that the above claims, called the "Hunch Bell Claims," were owned by the Hunchbell Mining & Milling Company up to 1928, and reverted to the County in 1929. The present owners are A. K. Bott, Denver Club, Denver, Colorado, and R. S. Minnis, 420 S. Berando Avenue, Los Angeles, Calif. The company apparently lost the property due to taxes, and therefore the company has been extinct since 1928 and the shares are without value.

Huron Copper Mining Company.
Succeeding Big Ledge Copper Company. Address, Nelson Gray, President, 52 West 42nd St., New York City; A. T. Baldwin, at mine address: W. W. Lytsen, Superintendent, Huron, Arizona. Incorporated May 10, 1923, in Delaware. Capital Stock $1,000,000. par $1. divided into $930,000 common and $70,000 preferred. Failure of Big Ledge stockholders to subscribe for its preferred stock in order to meet its obligations, company was placed in the hands of a receiver in September, 1922. A reorganization committee was at once appointed and early in 1923 proposed formation of new company to pay off Big Ledge Copper Company's debts of $165,000, in notes, etc., and to take over property. Under first plan of reorganization 1,000,000 new shares were issued, holders of Big Ledge Common (2,865,587) three old shares (par $5.) held, plus 10 cents per share assessment; holders of preferred (9,491) to receive five shares of Huron for each old share (par $5.) held, plus assessment of $1.50 per share. Additional shares might be purchased at 50 cents per share. As only 1,800 of 6,000 Big Ledge shareholders had responded by March 1, 1923, the plan was modified by giving preference to 70,000 of the 1,000,000 shares issued, the creditors having agreed to accept one half (70,000) of the votes due in such stock. In June 1923, Big Ledge property was purchased at a sheriff's sale for $165,000 and operations by new company were to begin immediately. Company owned property in the Big Bug District, Yavapai County, Arizona. The last reports of the company were received from W. W. Lytsen, Sierra City, California, who is a shareholder, that in the early part of 1925 the plant was being dismantled and sold. As there have been no sales or quotations of the company's stock since 1925, we believe the company dropped out of existence and the stock is worthless.

Imperial Copper Company.
We received the following letter from the American Smelting & Refining Company, 120 Broadway, New York City, signed by Mr. R. F. Goodwin, and dated January 13th, 1938: "Your letter of January 11, 1938, with reference to the Imperial Copper Company has been referred to me. The properties formerly belonged to the Imperial Copper Company were located at Pima and Pinal Counties, Arizona. As a result of foreclosure proceedings brought in the Superior Court, Pima, Arizona, in the case of Bankers Trust Co. vs. Imperial Copper Co and J. H. Martin, Trustee in Bankruptcy of Imperial Copper Co., intervenor, the properties were sold by Merrill P. Freeman, Receiver, on March 31, 1915, and purchased by one Leo Goldschmidt of Tucson, Arizona. Pursuant to an agreement, dated March 7, 1916, between Leo Goldschmidt and American Smelting & Refining Company, the latter purchased the properties in question. This company was never a stockholder of the Imperial Copper Company and never had any dealings with such stockholders. Its interest in the premises arose after Imperial Copper Company became a bankrupt and after its properties had been sold at the receiver's sale, which, as above mentioned, occurred in 1915. We have no knowledge as to whether the Imperial Copper Company owned any other assets or credits than the mine referred to."

Imperial Copper & Gold Mining Co.

Jura Trais Copper Company.

Company was organized in October, 1900, under the laws of New Mexico with an authorized capital stock of $1,000,000, par $1, with property described as Copper Claims and Gold Mine located about thirty miles from nearest railroad showing low grade ore at Senorito, Sandoval County, New Mexico. The officers were as follows: Thomas J. Curran, president; George W. Stubbs, secretary and treasurer, and at that time the company had an office in the Commercial Club Building, Albuquerque, New Mexico. In the year of 1907 the company went into bankruptcy and the property was sold to J. T. McLaughlin. The proceeds realized were insufficient to pay the creditors in full, so that the stock was entirely wiped out.

Leadville Metals Milling Co., Bank Annex, Leadville, Colo.
It was reported in the Denver Mining Record, June 4, 1938, Leadville, Colo. The concentrating mill of the Leadville Metals Milling Co., together with other property, has been sold at a bankruptcy auction sale to Dr. John Andrew of Longmont. It is understood that the upset price of the property of the company had been fixed at $32,500. Geo. O. Keeler, representing the majority stockholders, had made a bid, but Dr. Andrew, who is associated with Percy Hamm and others was the successful bidder and the sale to him was confirmed by the referee in bankruptcy, Frank McLaughlin. The mill remains closed and what further steps will be taken, or whether the plant will be reopened, remains unknown. Property owned was located in Lake County, Colo.

Matthews Iron & Steel Co. (Ga.).
The Secretary of the State of Georgia informed us they have no record of a company by the above name. Certificate signed by President, H. S. Matthews; Secretary, G. A. Dyer. A prospectus dated 1917 states that the company was incorporated in Georgia, and was located at Rome, Ga. Our stock books back to 1917 show no market for the stock at any time at any price. The First National Bank of Rome, Ga., informed us that this company has been out of business for many years. The company formerly owned a number of acres of land near Rome but said land was sold at auction. We found no value to the stock and therefore believe the shares are worthless.

Property: Mayflower group—2 patented and 7 unpatented claims, Quartzburg district, Quartzburg, Boise County, Idaho. (Gold). Property under development and operation by Texas-Owyhee Mining and Development Company.

Mayflower Gold Mining & Reduction Co. Incorporated in Colorado on Sept. 25, 1902 and was advertised as defunct and inoperative on Sept. 16, 1913. The company's charter expired by limitation on Sept. 25, 1922. It was reported in 1905 that the company's property was located at Telluride, Colo., and had little merit. It was reported that the company failed when it could not get additional capital. The Lawrence Savings & Trust Company of New Castle, Pa., successor to the Home Trust Company, informed us on October 14, 1939, that their Mr. J. C. Miner became an officer of the Home Trust Company in 1925, at which time the Mayflower Gold Mining & Reduction Company was defunct. In his opinion the bonds are worthless.

Mayflower-Old Colony Copper Company.
Incorporated in Michigan on March 5, 1917, and is located at 148 State Street, Boston, Mass. We received the following letter from the company in answer to our letter of October 9, 1939, as follows: "Replying to the above let me say that I cannot very well furnish information of this sort with the meager information you supply, but if you will send me the name in which the certificate is issued and the certificate number and number of shares, I will be glad to advise you as to the standing of the same according to our books. If by 7% assessment paid you mean assessment No. 7 paid it is possible that the certificate has been forfeited, because there were subsequent assessments, payment of which should have been

stamped on the certificate, unless payment was made without presenting the certificate for stamping."

Merion Centre Coal Mining Co.
Value of First Mortgage 7% bonds due Aug. 1, 1940. We received the following letter from Mr. Lewis M. Evans, Secretary, Bondholders Committee, Pennsylvania Company for Insurance on Lives and Granting Annuities, Phila., Penna., dated Jan. 31, 1939. "I have your letter of January 27th, making inquiry concerning the First Mortgage 7% bonds of the Merion Centre Coal Mining Co. A Protective Committee was formed for these bonds composed of members representing large holdings thereof. The mortgage was foreclosed in 1931, title being taken in the name of Clifford E. Hood, nominee, for the benefit of the bondholders. The committee and its associates made every effort to interest someone in all or various parts of this property, but without success, and charges for up-keep and taxes became very burdensome. On April 28, 1931, the Committee, after consulting the large holders of the bonds in Philadelphia, determined to abandon the

property and salvage the equipment. All of the personal property and timber has been disposed of. There was negotiated a lease for oil and gas rights under 200 acres, the title to which has been preserved in Clifford E. Hood for the benefit of the bondholders. This was with the T. W. Phillips Gas & Oil Co. and a small revenue is being received therefrom. There is a balance of a little over $1,000. in the hands of the Trustees, which is being retained for the protection of the remaining property in the event of the abandonment of the Phillips Oil & Gas lease. These people are paying 25¢ an acre for these rights but no oil or gas has been discovered in the vicinity. The future value of the bonds depends entirely on any recovery from this oil and gas lease."

Metals Extraction Corporation.
Incorporated in Colorado on Dec. 27, 1925, and filed its last report on March 15, 1937. President, Chas. F. Booth, Long Beach, Calif.; Vice-President, W. M. Stickler, Los Angeles, Calif.; Secretary, S. K. Strickler, Los Angeles, Calif.; Treasurer, Walter L. Mann, Rowan Bldg., Los Angeles. Mr. Walter L. Mann, an attorney, and former Treasurer of the company, located at Rowan Bldg., Los Angeles, Cal., informed us on October 12, 1939, as follows: ". . . I am to advise you that the stock has no value whatsoever. The only remaining assets of the company were lost several years ago when the plant at Salida was sold for taxes. The directors of the company spent a great deal of time in trying to dispose of this plant at even salvage values but were unable to do so and eventually the property was purchased, I am informed, by the American Legion at Sadila for delinquent taxes." Metropolitan Mining & Milling Company.
Incorporated under the laws of the State of Colorado on April 7, 1900, and was advertised as defunct and inoperative on September 16, 1913. The corporation was dissolved on April 7, 1920, by limitation of its charter. On May 4, 1904, the "Records Handbook" reported that the company was heavily in debt at last accounts, and was probably defunct. We found no record of the company since then and therefore believe that the company failed sometime before 1904 and the shares are without value.

Mineral Mining Company.
Incorporated in Utah and lost its charter in 1916. The Walker Bank & Trust Co. of Salt Lake City, Utah, informed us as follows on Sept. 24, 1938. "Your letter of September 20, 1938, addressed to Mr. Mathew H. Walker, who died over twenty years ago, has been referred to us for reply. We have been advised by the Corporate Department of the Secretary of State's Office, that the Mineral Mining Company, about which you inquired, was incorporated in 1915, with a total capitalization of 100,000 shares of a par value of $1.00 a share. The Secretary of State's Office further advised us that the company relinquished its charter in 1916. We have made attempts to get further information on this company from some of the original incorporators, but they advise us that they have no knowledge of the affairs of this company, and that in their opinion, the stock is without value." In view of the above we believe the shares are without value.

Mineral Mining Company (Utah).
Mr. Frank Lebner, Secretary of the above company, located at 1728 Summerdale Avenue, Chicago, Ill., informed us as follows on Sept. 7, 1938: "Your letter of August 23rd, addressed to Mr. Gallupe of Placerville, Idaho, just came to me for reply. Mr. Gallupe died last November and our office is now in Chicago, Ill. Mr. C. C. Fairchilds is no longer connected with our company in the capacity of an officer or a Director. We are in the hands of the S. E. C. at present due to a stock deal we had with a New York broker, who attempted to finance our company, during 1938 and 1937. They got away with considerable money, and fell into the hands of the S. E. C. Their trial is going to be held here in Chicago some time in September. The name of the guilty broker is Victor De Velliers & Co. from 120 Wall St., N. Y. C. I do not know the value of the stock at this time and there does not seem to be a market for the stock at any price right now. This probably is due to the case which will soon be up for trial. We are forbidden to sell or transfer stock until we are notified by that Commission. I trust this will answer your question, and perhaps you can get further information on this case since you are close to their office in New York."

Monarch Gold Ledge Mining & Milling Co.
The mill formerly owned by the above company located on the Lincoln highway about 60 miles east of Fallon, Nev., which has been in legal difficulties during the past year, was recently acquired by the I. H. Kent Co., of Fallon. The Kent Co. purchased the plant to protect its interest in a second judgment against the property. The mill was constructed during 1932 and was operated only a short time when creditors having liens forced suspension of operations. The plant is complete and well constructed, with ample facilities for accommodation of employes. Ira L. Kent said the company has no intention of operating the mill but that the purchase was made solely to protect the company's interest. It is the intention, he said, to sell it, preferable as a unit or if this cannot be done during the next 30 or 60 days then to dismantle it and dispose of it otherwise.

Montana Clinton Copper Company.
Incorporated in Montana. The Tax Assessor of Powell County, Montana, at Deer Lodge, Montana, informed us on April 19, 1940, that the Montana Clinton Copper Company, which owned the Julia Mine, and the Linus Copper Mining Company, which owned the Monarch Mine, have not operated for more than 20 years. The mines were located in unpatented lodes, and so did not appear on the tax rolls except for machinery and equipment. The records do not carry any record of the present owners, since all machinery and equipment have long since been removed, and the workings have been abandoned. Both of these mines lie in a highly mineralized area. The shares of both companies of course are without value.

Mountain Flower Gold Mining, Milling & Prospecting Company.
Incorporated on April 1, 1907, and has failed to file reports since its inception. The company's charter expired by limitation on April 1, 1932. President, M. J. Clemings; Secretary, T. G. Sorter. The Mountain Flower Mining Co. was incorporated in South Dakota in late 1929 as a reorganization of the above company. Stockholders in the old company were to receive new stock share for share. The Knickerbocker Securities Co. of Kansas City, Mo., was to have floated the new stock. It was reported in 1931 that the company's main activity had been a search for money rather than for ore. The company is not listed in the 1937 "Mines Register." The company apparently failed to get sufficient financing from the stockholders. The County Treasurer at Telluride, Colorado, informed us on May 12, 1939, that the 1938 Tax Roll shows "Mountain Flower Gold Mining Co., J. D. Sorter, 502 Corley & Lorcy Bldg., St. Joseph, Mo. The assessment is on Building, Tools and Equipment and the value is $100." Under the circumstances we believe the stock has very little if any value.

Nevada Queen Bee Gold Mining Co.
Value of stock dated 1905. It has been reported that certificates of stock issued by this company indicates that the company was incorporated in Arizona. The Arizona Corporation Commission reports that its records do not contain any information relative to the incorporation of the company. We searched our mining records back to 1905 and found no record of this company's operations. It is our opinion that the company did not complete its incorporation probably through lack of funds and apparently never functioned. The shares in our opinion are worthless.

Value of capital stock. Incorporated in Maine in 1904 and went into bankruptcy in February of 1912. On June 11, 1912, the entire assets of the company were sold for $102,000. The company reorganized as Consolidated Nevada Utah Corp., in 1913, under the laws of Virginia. The stockholders of the old company were only given the right to subscribe for stock of the new company. On Dec. 29, 1923, 800 shares of the company's stock were sold at auction at $1.00 for the lot. In view of the above we believe the shares are without value.

New Mexico Copper & Manganese Corp.
Incorporated in Colorado on Jan. 29, 1929, and was advertised defunct and inoperative on Oct. 12, 1931. In May 1930, it was reported that Geo. P. Goodier, president of the company, together with Wallace & Co., a brokerage firm, had been indicted, and charged with conspiring to use the mails to defraud, in connection with the sale of the shares. It was alleged that the shares were sold by the brokers up to $4.00 per share, under an agreement which netted the company 75¢ per share. We found no value to the stock and therefore believe the shares are worthless.

New Monte Cristo Mining Company.
Incorporated in Nevada in 1927 and forfeited its right to do business on March 1, 1930. Mr. C. C. Julian of Los Angeles, Calif., was listed as President. The corporation lost its right to do business in California on March 2, 1929. In January 1928, the company was licensed to sell $1,000,000 of bonds to the stockholders, but the sale to the public was forbidden. The entire venture, in our opinion, was a stock promotion and do not believe the company intended to find ore, as all the properties were formerly held by defunct companies. The shares in our opinion are worthless.

New York-Alaska Gold Dredging Corporation.
Incorporated in Delaware on October 24, 1921, as the New York-Alaska Gold Dredging Company, to operate at Tuluksak River, Bethel, Alaska. Mine address: Nyac, Alaska. The name

was changed to the above title in 1928, at which time rights were offered to predecessor shareholders. The corporation was located at 120 Broadway, New York City, in care of Milton, S. Dillon, attorney. We understand that Mr. Dillon died in February, 1939, and the corporation is now in care of Alfred Ely, attorney, 41 Broad St., New York City. Mr. Ely informed us on May 16, 1939, that the stockholders of the first company who did not exercise their rights to purchase stock of the new corporation lost all their equity. The stock of the corporation sold in April, 1938, according to Mr. Ely, at $1.00 per share, and therefore, submit $1.00 per share as a fair value as of April 25, 1938.

Northern Chief Iron Company.
We received the following letter from Mr. H. G. Beck, Assistant Secretary of the Wisconsin Valley Trust Company, Wausau, Wis., dated Jan. 26, 1939. "This company was organized in the year 1884 with an issue of 30,000 shares of stock, par value $100. They are the owners and lessors of iron mining lands in the Gogebic Range, Iron County Wisconsin. The operation of these mines has been continuous and dividends paid have amounted to the original value of the stock. As you know, these dividends are of a depleting nature. They have operated two mines in the last 10 years and in the one they have reached a boundary limit and the success and continuance depends entirely on the iron deposits in the remaining mines. In regard to the value of the stock, the stock is very closely held and the last transfer as far as we can check was some time last year at a price of about 15. Since that time there has been several dividends declared and paid which would tend to decrease the value of the stock. At the present time we are informed that they have a reserve which amounts to $10 per share. We trust this information will suffice your need."

(P) Esmeralda County, Nev. (Gold). "Denver Mining Record" April 20, 1940. Goldfield, Nev. —Additional information from the Ohio Mines Corp. at Goldpoint, south of here, brings the news that the recent new strike is developing into a rich discovery. The find was made in the Orleans Townsite section of the Ohio property. The raise on the 300 has now reached a height of 125 feet and the crosscut on the 400 is just entering the downward extension of the shoot. While the values at times run as high as $75, the ore as broken between walls is said to average close to $12. Otto Dieckman is general manager of the company with offices at the mill and mine in Goldpoint. Main offices are in Ohio. The company operates a custom flotation mill in addition to operating its own mine properties. About 30 men are employed.

Palmer-Paine Mines, Ltd. (Ontario).
Incorporated in Ontario, Canada, and according to their last annual statement of affairs on file, which is May 1, 1938, the company's address is shown to be 25 King Street West, Toronto, and the barristers who made application for the charter are Messrs. Blake, Lash and Company of the same address. President, Richard Palmer, 152 W. 65th St., N. Y. C.; Treasurer, S. L. Palmer, 152 W. 65th St., N. Y. C.; Directors, Powell Crichton, 152 W. 65th St., N. Y. C.; S. G. Crowell, 25 King St., W., 10 Balmoral Ave., Toronto, Canada. We received the following letter from J. W. Lanceley, Secretary to Mr. Miller Lash: "The situation in connection with the Palmer-Paine Mines, Ltd., as I understand it, is that the company's mining lease has been kept alive but the development work has been in abeyance for many years, probably owing to the lack of interest in silver prospects on account of the low price of silver. There have been no transactions in the shares for years and they could not be said to have any market value." (9/12/1938).

Park Utah Consolidated Mines Company, 1003 Continental Bank Bldg., Salt Lake City, Utah.
Organized in June, 1925 in Delaware. The original Park Utah Mining Company was organized in January 1917 under the laws of Delaware and changed its name to Park Utah Consolidated Mines Company in 1925. The corporation now represents a consolidation of the Park Utah Mining Company; Park City Mining and Smelting Company, and the Ontario Silver Mining Company. The Park City Mining and Smelting Company was a consolidation in 1922 of the Judge Mining and Smelting Company; Daly West Mining Company; and the West Ontario Mining Company. The Park Utah Consolidated Mines Company owns the controlling interest in the Daly Mining Company and the Weber Coal Company. Property consists of about 5,000 acres in Summit, Wasatch and Salt Lake Counties, in the Uintah, Snake Creek, Blue Ledge and Big Cottonwood Mining Districts, all situated in the Park City Mining District at Park City, Utah.
Stock listed New York and Salt Lake City.

Incorporated in Ontario on Oct. 25, 1923, and was located at 347 Bay St., Toronto, Ont., Canada. On Oct. 24, 1928, the stock was stricken from the New York Curb Exchange. Ground was broken in 1928 at which time no important disclosures were reported. The enterprise was distinctly in the prospective state. We received the following letter from the Provincial Secretary's office, Toronto, Ont. dated Aug. 1, 1939. "In reply to your letter of the 17th inst. with reference to the above company, we beg to advise that this company's file was removed from our current records some two years ago, on receipt of a declaration made by one of the directors that they had held no meetings nor used their corporate powers for five years or more, and that they had no assets. The company was incorporated in 1923 and the applicants for the charter were Messrs. Tytler & Sproule, barristers, whose address is 320 Bay St., Toronto, Canada. In the company's last annual statement of affairs on file here, which is of Dec. 31, 1928, among the officers shown residing in New York were Thos. P. Secrest, President, and Ralph H. McKee, a Director. If you cannot locate either of these and you wished more information in the matter, you might communicate with Joseph Montgomery, a barrister, at 85 Richmond St. W., Toronto, as he was the one who signed the above declaration."

Pinguico Mines Company, Mexico.
The Bureau of Mines of Mexico informed us as follows in March 1940: I refer to your letter of last December 20th, to state as follows: That the Pinguico Mines Company is not enrolled in the Public Registry of Mines, which is kept in the Department of Mines of this Division, nor does it hold mining concessions registered in its name; but, it did comply with the warnings of circular 31 and . . . it received knowledge that in 1917 it was the holder of the following mining rights:

Names	Numbers of the Claims
Pinguico	13898
San Jose	18008
Ampliacion del Pinguico	18856
San Roberto	33409
Ampliacion de San Roberto........	34382

The aforementioned company has allowed all the claims enumerated to lapse and, as it has not shown (any) signs of production, it follows that it no longer exists. The Pinguico Mining claim was applied for afterwards by Ricardo Martinez y Socios, who are the present concession holders. It is protected by title No. 70660.

Incorporated under the laws of Delaware September 13, 1920, and is out of existence, having become inoperative and void March 18, 1925, and proclaimed by the Governor January 1926 for non-payment of taxes. Certificate of Incorporation was filed by the Capital Trust Co. of Delaware, Dover, Del. The last annual report filed for the year 1923 showed the company having offices at R. F. D. No. 2, Prospect, Pa. President, H. A. Kurtz, R. F. D. No. 6, New Castle, Pa.; Vice-President, Albert Zueck, Homestead, Pa.; Treasurer, L. S. Dietrich, Homestead, Pa.; Directors, Edward Erhart, 2816 Sherlak St., Pittsburgh, Pa.; Fred Ernst, 14th and Pike Sts., Pittsburgh, Pa. We found no record of this company's operations. It is our opinion that the company did not get beyond the development stage and that the shares are worthless.

Plymouth Consolidated Gold Mines, Ltd. Del. 1938.

Plymouth Consolidated Gold Mines Ltd. Incorporated in Delaware on May 22, 1933, as the Mirador Mining Co. and changed its name to the above on Jan. 9, 1934. The latter company lost its charter on April 1, 1937. On April 25, 1935, the Securities & Exchange Commission, Washington, D. C., informed us that this company filed a registration statement with the Commission, but on Jan. 3, 1935, the Commission ordered a stop order proceeding to suspend the effectiveness of this registration statement on the grounds that there were certain misstatements of material facts or omissions to state all the facts necessary. The hearing was still pending in April, 1935. On Jan. 3rd, 1935, the Commission also obtained a temporary restraining order in the U. S. District Court for Delaware, restraining this company from any further sales. In view of the fact that the company lost its charter in 1937 for failure to file reports for 2 years, it is our opinion that the company ceased to exist in 1935, at which time the shares were worthless.

Portland Gold Mining Company (Wyo.).
The United Gold Mines Company, located at Colorado Springs, Colorado, took over the property of this company in 1934. The United Gold Mines Company informed us on May 13, 1937, that the Portland Gold Mining Company has been dissolved and the outstanding shares have a cash value of $2.83 per one thousand shares on surrender of the certificates. In view of the above, it is our opinion that the loss on this stock should have been taken in 1934 when the shareholders knew that all they could recover would be $2.83 on each 1,000 shares.

Princess Alice Consolidated Gold Mining Company.
Incorporated Wyoming and lost its charter 1927. In 1907, U. S. Investor reported that the company gave a mortgage on all its properties to secure $225,000 of 8% bonds due 1905. Property in 1903 reported as prospective. The company lost its charter in 1927 by limitation. We found no record of the company's operations and therefore believe that the property eventually went to the bondholders and the stock is without value.

Quebec Gold Research Corporation, Limited.
Incorporated in the Dominion of Canada on March 1929, and was located at Castle Bldg., Montreal in 1935. The company acquired the property of Abbey Mines, Ltd., and Canada Quebce Mining Corporation, on basis of one share of Quebec Gold for five shares of each of the former companies. The property consisted of 450 acres in Dubuisson township and 600 acres in Courville township, Quebec. Only surface development was done. In 1937 the company was not listed in "The Financial Post Survey of Mines." The company filed its last report in 1934, at which time Mr. Paul Valentine of 132 St. James Street, W., Montreal, was listed as President. We found no value to the stock and therefore believe the shares are without value.

Ray Hercules Mines Inc.
Supplementing our previous report on the above company, we received the following letter from the Nevada Consolidated Copper Corporation, 120 Broadway, New York City, dated Aug. 22, 1939. "Your letter of August 17, addressed to Mr. Crockett, our Transfer Agent, has been referred to me for reply and I give you below a brief history of the Ray Hercules situation for your information: The Ray Hercules Mines, Inc., on or about November 1, 1922, executed a mortgage on all of its property to the Chatham & Phoenix National Bank of The City of New York, as Trustee, to secure an issue of bonds for the principal sum of $1,000,000. The Company having defaulted in the payment of interest, the mortgage was foreclosed and the property sold about twelve years ago to a committee acting on behalf of the bondholders, for a sum considerably less than the amount of the mortgage, so that there was a deficiency judgment of a large amount with interest. Any equity, therefore, that the stockholders might have had was cut off by the foreclosure, with the result that the stock became worthless. This company did not purchase any of the stock, but purchased the property direct from the Bondholders' Committee for a sum much less than was paid for it by said Committee on foreclosure. The Bondholders, therefore, having received much less than the principal, the stock became valueless, since the Ray Hercules Mines, Inc., had no other property."

Ronda Gold Mines, Ltd., 85 Richmond Street, W., Toronto, Ont.
(P) Churchill and Macmurchy Twps., Ont. Assets sold to Senator-Rouyn Mines, Ltd., in 1939. The Financial Post of Toronto, Ontario, informed us on April 4, 1940, that the Canadian Creditmen's Trust Association, trustees in bankruptcy for Ronda Gold Mines, Ltd. informed them that it is extremely unlikely that anything will remain for shareholders of that company. What little there was that creditors could lay claim to was sold for 6,220 shares of Senator-Rouyn Limited. This company's stock is selling under 50¢ per share on the Toronto Stock Exchange and is expected to permit a small distribution to creditors after winding up expenses are met.

Rose Spring Mining Company.
Incorporated in Arizona in 1911 and was located at San Francisco, Calif. The company's mines were located at Ballte Mountain, Nevada. President, James Healey; Vice-President, L. H. Trescott; Treasurer, S. O. Trescott. In 1916 no further trace of the company could be found. We found no value to the stock. We received the following letter from L. R. McIntire, County Treasurer, Lander County, Austin, Nevada: "Your letter of the 9th inst. received and contents noted. I have looked up the standing of the Rose Spring Mining Company and find the folowing: Papers of Incorporation were filed in County Clerk's office in 1911. The charter was forfeited in 1924. The Corporation does not own Mining Claims in this County, as no Proof of Labor or Claim for Exemption from labor have been recorded in Recorder's Office in this county. That said corporation is not on the Tax Roll of this County."

Salvador Mining and Milling Company.
Value of 1,300 shares of Capital Stock, par value $10. Incorporated in Arizona on November 19, 1900, and failed to file reports since its inception. The company's charter expired by 25 year statutory limitation on November 19, 1925. I found no record of the company's operations nor any value to the stock. It is my opinion that the shares were worthless as of July 2, 1937, the date of the decedent's death.

Salvator Mining Company.
Incorporated in Nevada and forfeited its right to do business in March 1924. The company may be reinstated by paying the back taxes from 1923. The Colorado Consolidated Mines Co., located at Walker Bank Bldg., Salt Lake City, Utah, informed us as follows on Nov. 1, 1938: "We have your inquiry of Oct. 25th, relative to stock of the Salvator Mining Co. Control of the Salvator Mining Company was taken over by the Colorado Consolidated Mines Company in December, 1923, on the basis of 5 shares of Salvator stock for one share of Colorado Consolidated stock. At the time the Tintic Standard Mining Company assumed control of the Colorado Consolidated Mines Company in 1927, all outstanding stock of the Salvator Mining Company was arbitrarily issued into stock of the Colorado Consolidated Mines Company. Since that time three assessments have been levied against the outstanding stock of the Colorado Consolidated, aggregating 5 cents a share, and any stock which might have been outstanding at that time has been forfeited for non-payment of assessments. The charter of the Salvator Mining Company has lapsed, and the stock therefore has no value." In view of the above, we believe the shares are without value.

Press Report in the Herald Tribune, New York City, dated July 28, 1938: Notice to Bondholders of Seneca Copper Corporation (Liquidating Dividend). Pursuant to orders and decrees of the United States District Court for the Western District of Michigan, Northern Division, in Central Hanover Bank and Trust Company as Trustee, Plaintiff, against Seneca Copper Corporation and Seneca Copper Mining Company, Defendants, Consolidated Cause in Equity No. 645, the holders of the First Mortgage Seven Percent Gold Bonds of the Defendant Seneca Copper Corporation dated as of July 1, 1923, whether on deposit with said Trustee as the Depositary for the Bondholders Protective Committee under agreement of January 2, 1932, or not so deposited, are hereby notified and requested to present their bonds to the undersigned, as Special Master in said Cause, at Suite No. 645, Michigan Trust Building, in Grand Rapids, Michigan, on or before the close of business on Monday, August 15, 1938, for payment thereon at the rate of $4.30 per $1,000. face value of such bonds, from the proceeds of the sales of the property and assets of the Defendant Seneca Copper Mining Company pursuant to the final decrees dated March 2, 1938 of foreclosure and of sale in said Cause. Affidavits of ownership must accompany the bonds and all unpaid coupons must be presented therewith. After payment has been endorsed upon the bonds, they and the coupons will be cremated under the direction of the undersigned and certificates of cremation will be prepared and filed by him with said Trustee. All holders of the bonds and of the Certificates of Deposit for the bonds have the option to accept either the liquidating dividend or in lieu thereof full paid and non-assessable shares of Peninsula Copper Company, a Michigan corporation, on the basis of one share for each $50. of the bonds, principal and interest. From on and after August 16, 1938 any moneys remaining in the hands of the undersigned as undistributed liquidating dividends will be paid to the Clerk of said Court at Grand Rapids, Michigan, to be held by him in such Cause for the parties entitled thereto and to whom applications for payment will have to be made under such terms and conditions as the Court or he may prescribe. Dated, Grand Rapids, Michigan, July 15, 1938. Kirk E. Wicks, Special Master. A notice previously published stated the amount to be distributed as $4.98. This was an error. See Seneca Copper Mining Company.

Seneca Copper Mining Company (Del.).
Holders of Seneca Copper Corporation First Mortgage 7% bonds were notified in 1938 that Kirk E. Wicks, Special Master, would pay to all holders who presented their bonds to him on or before August 15, 1938, a liquidating dividend of $4.30 for each $1,000. bond. All holders had the option of obtaining this dividend or shares of the Peninsula Copper Co. on the basis of one share for each $50. bond, principal and interest. See Seneca Copper Corp.

Senneterre Gold Syndicate.
We received the following letter from S. E. Cassan, South Tiblemont Gold Mines Limited, 207 Brook Bldg., 200 Bay St., Toronto 2, Canada, dated Dec. 18, 1939: "I acknowledge receipt of your letter re Senneterre Gold Syndicate. The syndicate was formed in 1933 to develop some claims around Senneterre, Quebec. A few thousand dollars were secured, and spent in opening up several of the properties that year. The results obtained were not encouraging, and the work stopped through the lack of funds. A year later the Securities Department was advised the syndicate to be dormant. I trust the above information will answer your purpose. I was trustee for the syndicate, and I can assure you that it is completely dead."

Shannon Copper Company.
We received the following letter from Nathan L. Amster, President of Shannon Copper Company, 25 Broad Street, N. Y. C., dated May 28, 1938. "Referring to your letter of the 26th, the Shannon Copper Company property was closed down about twenty years ago. The principal properties were sold years ago. The remaining small property is at Gleeson, Arizona, and efforts to sell same have been unsuccessful. There has been no sales of the stock for some time. The last sale being in the neighborhood of five cents a share and it was 'over-the-counter' in Boston. We had hoped to be able to dispose of the property and dissolve the company, but as above stated, our efforts to sell same have not met with success to date." Stock quoted in Dec. 1939 at 10¢ bid.

Simard United Mines, Ltd.
Value of Capital Stock, No Par Value. Incorporated under the Dominion Companies Act on September 2, 1924, with head office at Montreal, Quebec. The annual report filed by the company for the year ending March 31, 1928, reported Dr. J. A. McInnis of Timmins, Ontario, as President. On November 14, 1931, the company was declared defunct and inoperative. We searched the Financial Post Survey of Mines back to 1927 and found no record of this company's operations. If the company had any production at all the Financial Post would have received record of it. It is our opinion that the company has been out of existence for many years and that its shares are without value.

Incorporated in Utah and is located at Judge Bldg., Salt Lake City, Utah. President, Henry Shields; Secretary, Lester Rankin; Vice-President, W. I. Snyder. Mr. Snyder informed us on Oct. 29, 1938, as follows: "In response to your inquiry above regarding the Snake Creek Consolidated Mining Company, I might say the company is in good standing and has kept the taxes paid on its mining claims. The stock has no particular market value as it has never been listed on any exchange, and except for an isolated transfer, there has been no dealing in the stock of recent years. I have been acting as Secretary merely, with office at 419 Judge Bldg., Salt Lake City."

Star of Utah Mining Company.
We received the following letter from the New Park Mining Company, Newhouse Bldg., Salt Lake City, Utah., signed by W. H. H. Cramer, President and dated Oct. 18, 1939. "The Star of Utah and Mayflower Mining Companies consolidated into the New Park Mining Company together with the Park Galena Mining Company, and the owners of stock in the three above mentioned companies were given an opportunity to exchange their stock for New Park stock by the payment of ten (10¢) cents per share for transfer fee. This opportunity was held open for over two years, and the stockholders in all the companies were notified, and they were given until a certain date to make the exchange and pay their transfer fees. The Star of Utah and Mayflower are not now traded in, nor do these companies have any assets, and there is no market for the stock of either company. If you desire any further information on the matter, we will be glad to have out attorney give you details of the consolidation." For your information New Park Mining Company stock sold during the week of Oct. 15, 1939 at 11 cents per share.

Sunset Gold Fields, Inc.
Incorporated in New Mexico and forfeited its charter on January 15, 1940. Pres., Frank W. Tillinghast, Turks Head Bldg., Providence, R. I.; Sec'y, William F. Garner, P. O. Box 542, Lordsburg, New Mexico. Mr. Tillinghast informed us as follows on February 13, 1940: ". . . Several months ago I wrote to Dr. William H. Garner, who was then the manager at Lordsburg, New Mexico, in reply to a request from him for more money. I told him definitely that I would advance no more money in an effort to carry on the work at the mine. It has cost me a good many thousand dollars but I believed Dr. Garner was honest and knew what he was doing. I now have many reasons to doubt it. On the last occasion he assured me positively that with $4,000. he could begin actual recovery and that amount was forwarded to him. The result was that without any recovery at all, he demanded a great deal more money, and I then declined to have anything further to do with the property. My only consolation is that I have never directly or indirectly had anything to do with or made any solicitations to any person or persons concerning the sale of this stock. It is possible Dr. Garner is still making some effort and still working on the property." The Tax Assessor of Grant County, New Mexico, at Silver City, informed us on February 19, 1940, that the Sunset Gold Fields, Inc., have property on the tax rolls in this county valued at $20,000. consisting of buildings and equipment. There was no mention of any mine.

Tashota Goldfields, Ltd.
Incorporated in 1932 in Ontario to acquire Tashota Gold Mines, Ltd., for $15,000 cash and 900,000 Tashota Goldfields shares. Following this, Tashota Gold Mines, Ltd., changed its name to Kowkash Holdings, Ltd. The charter of Kowkash was surrendered in December 1936, and the Tashota Goldfields shares were distributed to Kowkash shareholders on the basis of 3 Tashota Goldfields shares for each 10 Kowkash held and a cash distribution of 1/10th cent per Kowkash share was made. Transfer Agent, Montreal Trust Co., Toronto, Can. We received the following letter from H. H. Vaughan, 1111 Beaver Hall Hill, Montreal, Canada, dated Sept. 26, 1939. "I have your letter of September 22nd and regret to advise you that Tashota Goldfields Limited has been in the hands of a Liquidator in Bankruptcy for the last eighteen months. The Trustee is Mr. K. Lem. Carter, c/o McDonald, Currie & Co., 69 Yonge Street, Toronto, Ont., Canada. There has been a proposition to rescusitate the business and I believe some others have also been discussed, but as yet the Trustee has been unable to obtain any satisfactory proposition, which is most unfortunate. I regret to say that there is no better news to give you but if you require any further information would recommend your writing to Mr. Carter." Tiger Placer Mining Co.
It was reported in the Denver Mining Record, Aug. 5, 1939, that the U. S. District Court sustained the order of the federal referee in bankruptcy ordering the Tiger Placer Mining Co. and the Blue River Mining Co. to turn assets to the trustee for creditors of the bankrupt Royal Tiger Mines Co. The decision, in effect, ruled that the two companies were subsidiaries of the defunct Royal Tiger Mines Co. which went bankrupt in February 1938. Attorneys for the Tiger Placer and the Blue River companies argued the new enterprises were organized years before the Royal Tiger went bankrupt, had additional capitalization and were distinct from the older company. Assets of the two gold mining companies consist of several hundred claims in Summit County, worth, it is said, approximately $500,000. Creditors of the Royal Tiger are owed nearly $400,000 according to the attorney for the trustee.

Tonopah Extension Mining Co. (Arizona 1902).
Went into receivership in 1928. In 1929 the assets of the corporation were sold by the Bond Holders Protective Committee to satisfy the bonded indebtedness. The sale resulted in only a partial satisfaction of their indebtedness and the Bond Holders took over the assets of the company and formed a new company known as the Tonopah Extension Mines Co. Neither the common nor preferred stock retain any equity in the old company. Further information may be obtained from Homer L. Williams c/o Tonopah Extension Mines Co., Tonopah, Nev., or Mr. T. F. Cole, 1230 S. Oakland St., Pasadena, Calif., who acted for the bond holders.

Company not operating at this time (April 19, 1938) but is negotiating for a gold property in California and if it can be acquired on proper terms work will probably be started and an assessment levied to finance the operation. The stock has been temporarily delisted on the S. F. Mining Exchange but has maintained and filed all reports required by the Securities & Exchange Commission so that when the company is financially able, it will pay the listing fees now due and have the stock reinstated on the Exchange. Company located at 333 Kearney St., Room 304, San Francisco, California, in care of M. Grotyohn. Mr. M. W. Burdick, Room 309 Bank Bldg., Main St., Tonopah, Nev., is the resident agent. Company in good standing until July 1, 1938.

United Free Land Development & Tunnel Company.
Incorporated in Colorado on Sept. 16, 1913 and was advertised as defunct and inoperative on Oct. 13, 1931. The charter expired by limitation on Sept. 16, 1933. Our records indicate that this company succeeded the Monarch Development & Tunnel Co., and its principal office was located at Idaho Springs, Colorado. It was also reported that in 1923 a suit against directors, brought by a representative of the minority stockholders alleging that directors and majority stockholders had fraudulently gained possession of the property, and asking for the appointment of a receiver, was decided for the defendants. Therefore, it is our opinion that the shares have no value.

United Mines of Quebec, Ltd.
Incorporated in 1927 under Dominion Charter and was located at 708 Insurance Exchange Bldg., Montreal, Quebec. It was reported that the company's property consisted of 600 acres in North part Dufresnoy Township, Quebec.

The Mines Bureau reported that only assessment work had been done up to 1929. There has been no record of assessment work or other development since then as it is not listed in the Financial Post Survey of Mines which lists all Canadian mining companies. It is therefore our opinion that the company is out of existence and its shares worthless.

United Mining Company.
Incorporated under the laws of the State of Delaware as Unidas Mining Company on Nov. 16, 1933 and filed an amendment Nov. 25, 1933, changing its name to that of United Mining Company, by which name it is now known and which is still in existence and good standing as far as the records in our library show. Valenciana Deep Mining Company.
Incorporated in Delaware on May 5, 1921, as the Valenciana Extension Mining Co. and changed its name to the above in 1923. The company lost its charter in 1932. Mr. Byron E. Eldred, former President of the Company, located at 51 E. 42nd St., N. Y. C. informed us as follows on June 13, 1938. "I am in receipt of your letter of June 9th in regard to stock of the Valenciana Deep Mining Co. This stock is valueless. I understand the company ceased to exist. The writer resigned as President several years ago. For your further information, the Valenciana Mine is an ancient mine, previously worked to great depth. It was unwatered and explored by diamond drilling only to prove that the ore body was exhausted."

Victory Divide Mining Company.
Incorporated in Nevada and forfeited its right to do business legally under their charter on the first Monday of March, 1924, because of failure to file list of officers and pay fees and penalties amounting to $137.50. The incorporators were as follows: Floyd Cable, Goldfield, Nev.; Joseph Bruder, Goldfield, Nev.; H. E. Clark, Goldfield, Nev. The last list of officers filed June 23, 1919, showed the following: President, A. I. D'Arcy, Goldfield, Nev.; Vice-President, H. E. Clark, Goldfield, Nev.; Secretary, Harry B. Ruhl, Goldfield, Nev. The principal office was located at Goldfield, Nevada, and Harry B. Ruhl was the duly authorized resident agent. Supplementing our report rendered on May 2, 1939, we found that this corporation was reorganized in 1921 and the new shares were assessed. Therefore, as this is the old stock, the assessments were not paid and the shares are absolutely worthless and have been so since 1924.

Washoe Copper Company.
Incorporated in Delaware on Sept. 28, 1917 and changed its name to Nixon-Nevada Consolidated Mines Co. in 1920. The latter corporation lost its charter in 1927. The company was succeeded by the Nixon-Nevada Copper Corp. in 1924. The corporation lost a large portion of its property in 1928 through failure to pay taxes and do assessment work. This property was acquired by the Copperfield Mining Co. in 1928 and 2 shares of Copperfield Mining Co. were exchanged for 1 share of Nixon-Nevada Copper Corp. In 1924 the Nixon-Nevada Copper Corp. exchanged its shares for those of Nixon-Nevada Cons. on the basis of one new share for five old shares, plus a payment of 5¢ for each share of old stock exchanged. This privilege expired Dec. 20, 1924. Any outstanding shares of the Washoe are now worthless. The Copperfield Mining Co. has an office at 29 Broadway, New York City but their telephone has been disconnected. (6/9/1938)
